DETAILED ACTION

Specification

1. Abstract Applicant is reminded of the proper language and format for an abstract of the disclosure.

The abstract should be in narrative form and generally limited to a <u>single paragraph on a separate sheet within the range of 50 to 150 words</u>. It is important that the abstract not exceed 150 words in length since the space provided for the abstract on the computer tape used by the printer is limited. The form and legal phraseology often used in patent claims, such as "means" and "said," should be avoided. The abstract should describe the disclosure sufficiently to assist readers in deciding whether there is a need for consulting the full patent text for details.

The language should be clear and concise and should not repeat information given in the title. It should avoid using phrases which can be implied, such as, "The disclosure concerns," "The disclosure defined by this invention," "The disclosure describes," etc.

Correction is required. See MPEP § 608.01(b).

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.
- 3. Claims 1-20 are rejected under 35 U.S.C. 102(e) as being anticipated by Hauser (US 6,536,659, hereinafter "Hauser").

Re claims 1, 6, 8, 13, 15-17, and 19, Hauser discloses a system for monitoring and managing product inventory (see abstract; col. 2, lines 9+; see claims 1 and 9) wherein the

10

central database keeps track of product/inventory information (col. 2, lines 9+), and the inventory information is captured using data collection device such as barcode reader (see step 206 in figures 4 and 5), the barcode containing product information and other information (col. 4, lines 35+), and at least part of product information is updated (col. 2, lines 27+). The system is operated on a platform including a communication network further comprising the Internet (col. 2, lines 49-67). The product information barcode further contains a disposition instruction (col. 4, lines 58+).

Re claim 8, the returned merchandises are considered to be "unsold" items.

Re claims 9, 10, 11, 14, and 20, the inventory item can be classified to be resellable, refurbished, discarded or donated to charity (col. 3, lines 1-7). The scanners 64 are used both to enter and retrieve data from the database (col. 6, lines 18+).

Re claims 2, 3, and 7, the retailers or manufacture can determine as to how a product should be disposed (col. 5, lines 66 - col. 6, line 17).

Re claims 4, 5, and 18, the product barcode contains a product identification information (col. 4, lines 58+; col. 8, lines 23+).

Re claim 12, the product disposition instruction can include special handling instruction (col. 1, line 48 - col. 2, line 6).

Conclusion

Application/Control Number: 10/614,488 Page 4

Art Unit: 2876

I. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure: Tobaccowala et al. (US 6,085,914); Johnson et al. (US 2001/0037275 A1); Harris et al. (US 5,878,416); Fried et al. (US 6,546,303); Snapp et al. (US 2003/0233246 A1) disclose inventory monitoring system comprising the methods for disposing items. Applicant is respectfully suggested to carefully review these references.

II. Any inquiry concerning this communication or earlier communications from the examiner should be directed to *Ahshik Kim* whose telephone number is (571)272-2393. The examiner can normally be reached between the hours of 6:00AM to 3:00PM Monday thru Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael G. Lee, can be reached on (571)272-2398. The fax number directly to the Examiner is (571)273-2393. The fax phone number for this Group is (703)872-9306.

Communications via Internet e-mail regarding this application, other than those under 35 U.S.C. 132 or which otherwise require a signature, may be used by the applicant and should be addressed to [ahshik.kim@uspto.gov].

All Internet e-mail communications will be made of record in the application file. PTO employees do not engage in Internet communications where there exists a possibility that sensitive information could be identified or exchanged unless the record includes a properly signed express waiver of the confidentiality requirements of 35 U.S.C. 122. This is more clearly set forth in the Interim Internet Usage Policy published in the Official Gazette of the Patent and Trademark on February 25, 1997 at 1195 OG 89.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the Group receptionist whose telephone number is (703) 308-0956.
